**What our patients say about us:**

Jim Jacques

“I had exceptional care. I had fallen and broken my hip. The registered nurses, therapists and assistants were all very professional, positive and encouraging. I was treated very well and had a positive experience under difficult circumstances.”

Harry Wright

“The help I received from the health department nurses allowed me to stay home versus being in the hospital. The nurses were wonderful. They did a beautiful job taking care of my PICC line and keeping it from becoming infected for 4 months.”

Jennifer & Angel Seymour

“Angel was born 4 months prematurely. Health department nurses were able to come to our house and take care of us in the privacy of our home so Angel was not exposed to colds and flu by going out in public. Thanks to a great department!”
